MINERS GET BOLDER

Mobs on a Rampage at Shenandoah Doing Considerable Damage.

The Sheriff of Logan County Reported Nearly \$10,000 Short in His Accounts.

BIG ROBBERY IN LOUISVILLE

MINERS FORM A MOB.

Shenandoah, Pa., July 30.—The attitude of the striking mine workers here is becoming more demonstrative. All last night a mob of fully 1,000 men and boys were on the march. They first visited West Shenandoah colliery and drove the non-union workmen from the engine pumps and fire rooms. Workmen were compelled to seek refuge in camp from the coal and iron police. The strikers assailed the breakers with stones, doing much damage to window glass. From the West Shenandoah mine a mob proceeded to the Indian Ridge colliery, where they were confronted by a body of special police whose presence prevented violence.

SHERIFF REPORTED SHORT.

Russellville, July 30.—Reports some time since that there were irregularities in the office of M. A. Neely, sheriff of Logan county, have resolved themselves into official announcement that Neely is short in his accounts to the amount of \$23,445.81. He is now in Louisiana with his family. Never was Logan county so disturbed before, and what was some time ago looked upon as political animosity is now accepted as fact in face of the report made by the special commission appointed by fiscal court of Logan county to look into the affairs of the sheriff's office.

BIG ROBBERY AT LOUISVILLE.

Louisville, July 30.—Harry Sawyer, general master mechanic of the Louisville and Nashville railroad, was robbed of \$1,263 this morning in Union Station at Tenth and Broadway. The robbery is the largest for some time, and certainly the boldest. It is being investigated by detectives with some prospect of success. The money was in bills, and was received by Mr. Sawyer from Baltimore last night. It came by express, and he was on his way down to place it in bank.

A FATHER'S INSANE DEED.

Louisville, July 30.—Douglas P. Dye this morning shot his son, Carroll, aged 11, as the boy lay sleeping, and then turned and fired one shot into his own brain, dying instantly. It is the opinion of physicians that the boy is mortally wounded. The double deed of the father is ascribed to insanity.

KILLED IN A FIGHT.

Barbourville, July 30.—In a drunken row on Stinking creek Ace Messer shot and killed Wm. Simpson. Messer was arrested.

FELL INTO THE WELL

Narrow Escape at Noon of Master Frank Duperrieu.

His Companion, George Yancey, Rendered Assistance Which Saved His Life.

IS ONLY SLIGHTLY INJURED

Frank Duperrieu, age six years, the son of Mr. Julian Duperrieu, the well known tailor, fell into a deep well today at noon, and was saved from drowning only by the presence of mind of his companion, George Yancey, age nine years.

The boys had been playing about a well on the Yancey place on North Thirteenth street near the Rowlandtown road, when the Duperrieu boy fell in. The fall was 30 feet before water was struck, and in descending the little fellow struck a brick and badly cut and bruised his head.

Although badly injured, by clinging to the sides of the well the little fellow managed to keep from drowning until his companion, who had started to run for assistance, threw him down a rope with bucket attached, and to this the youth clung until his companion's cries for help brought Mr. Ernest Pell, Mr. Duperrieu's brother-in-law, to the scene, and he pulled the boy out by the rope.

When the little fellow fell into the well the top closed down but his companion lost little time in lending assistance, and had he not had the presence of mind to throw down the rope, the unfortunate boy would have drowned before assistance could be secured. Mr. Duperrieu lives a short distance away from the scene of the accident and was brought there by the cries for help.

Dr. B. B. Griffith, who was at the time making a call in that neighborhood, was called in and dressed the injury to the little fellow's head.

CAST BODIES ADRIFF

TWENTY-THREE NATIVES ON TRIAL CHARGED WITH THE MURDER OF FOUR AMERICANS.

Washington, July 30.—Manila papers received at the war department give an account of the beginning of the trial of twenty-three natives in the island of Mindoro, who are charged with killing four Americans. The four Americans approached the shore of Mindoro in a boat, and as soon as they landed the natives attacked them, putting all to death and mutilating them. The bodies then were put in the boat and cast adrift. The finding of the boat by Americans led to the discovery of the crime, and confessions from some of the natives gave such facts as have been obtained.

CUT HARNESS

SERIOUS CHARGE ALLEGED AGAINST A BOY.

Will Forrester, age about 14, was arrested this morning by Officer B. F. Farrow for cutting harness.

It is alleged that the boy cut harness belonging to the Bradley grain company on Harrison street near Ninth. It is also charged that he cut several other sets of harness. The boy is alleged to have used a knife and cut the harness in many places, rendering the set worthless. Mr. Bradley will this afternoon take out a warrant against the youth.

Miss Alice Johnston has returned from a visit to Smithland.

THE CHIEF ENGINEER

Mr. P. D. Fitzpatrick Resigns His Place With the I. C. R. R.

Will Accept a Position With the Katterjohn Construction Company.

NO SUCCESSOR APPOINTED

Mr. P. D. Fitzpatrick, assistant chief engineer of the Illinois Central, and chief engineer of the Louisville division of that road, has resigned his position to accept a position as general superintendent of concrete work for the Katterjohn Construction Co.

The resignation is effective August 1 and as yet no successor has been appointed. Mr. Fitzpatrick will have the superintendency of all the concrete work and arches that are being built for the Illinois Central by the Katterjohn company, and his territory will reach over the entire system wherever the work is being performed. Mr. Katterjohn himself has been superintending the work, but finds that he will have to remain in and about Paducah and Cedar Bluff, where his stone quarries are located, in order that he might give the business his more immediate attention.

Mr. Fitzpatrick has been with the Illinois Central for about one year, having succeeded Mr. L. A. Washington, now city engineer of Paducah, as engineer of the Louisville division of the road, the latter having gone with the Gulf and Ship Island road.

Superintendent J. O. Dalley, of the Louisville division, arrived in the city this morning to meet Mr. O. M. Dunn, the assistant general superintendent of southern lines, and with Mr. Katterjohn, is having a conference relative to the appointment of a man to succeed Mr. Fitzpatrick. They have several good men in view for the position, but have made no appointments yet. Mr. Dalley said this morning that while Mr. Fitzpatrick's resignation is effective August 1, he will probably be retained as engineer until later in the month, if a man to succeed him has not been selected by that time.

Mr. John S. Hobson, the coal man, was a pleasant visitor to Paducah today. He said that all signs point to a severe winter, and he expects to sell vast amounts of coal.

WILL START ANEW

Contract for Building the Public Library is Declared Off.

New Bids Will Be Asked for and Opened August 11 By the Trustees.

CONTRACTOR DAVIS RELEASED

There was a meeting last night of the board of public library trustees, and Contractor B. T. Davis asked to be released from his contract to build the new public library, not because he would lose anything himself, but because some of his sub-contractors would. He offered to forfeit the \$500 left with the board as a guarantee that the building would be erected according to plans and specifications, but the trustees released him without requiring him to lose anything.

As one of the trustees stated, the board did not desire to cause anyone to lose anything on the contract. The error made was unintentional, and the board did not desire that anyone suffer from it.

It was then decided, after Contractor Davis had been released, to ask for new bids to be opened August 11 at 6 p. m. Bids will then be taken in three ways; one set stipulating that the cornice and parapet shall be of terra cotta and roof of tiling; one making the cornice and parapet of metal and the roof of slate, and one calling for a brick frieze and dental course instead of stone with tile roof.

The above action, as forecast exclusively in yesterday's Sun, was brought about by a discovery of an error in the bid of Chamblin and Murray to furnish the brick. Their bid was \$12,981, and should have been about two thousand dollars more. Chamblin and Murray did not discover their mistake until they had signed up with Contractor Davis, and consequently could have been held to their agreement just the same.

It is believed that in order to get the bids within the cost of the building, \$30,000, the roof will be changed as explained yesterday, from tiling to slate, and the cornice from tiling to metal.

Mr. and Mrs. F. Kamlet left today on the packet for Evansville on a visit to their daughter, Mrs. Charles Scholz.

President Loubet Summarily Dismissed Admirals

One Was Too Free in Public Discussion and the Other Mixed Up in a Snafu.

AGITATION IN PARIS DYING OUT

Paris, July 30.—Two distinguished naval officers, Vice Admiral De Beaumont, maritime prefect of Toulon, and Rear Admiral Serran, commanding the Atlantic divisions, have been summarily relieved of their commands by order of President Loubet. Rear Admiral Serran's downfall is attributed to sensational developments which led up to the recent suicide of Commander Barry, who shot himself in the cabin of the cruiser Tage while off Martinique. Rear Admiral Serran was aboard the Tage at the time. De Beaumont's discipline is said to be due to a recently published but denied interview, severely criticizing the minister of marine, M. Pelletan.

AGITATION DYING OUT.

Paris, July 30.—The agitation in connection with the circular issued by Premier Combes with regard to the closing of the unauthorized congregationalist schools has considerably abated, even in Brittany, owing to the circumstances that none of the recalcitrant schools will be forcibly closed until special decrees to this end have been signed for each department. In many departments such action will not be necessary, as the congregation have submitted, and moreover the decision of the government not to close those schools for which authorization was not asked owing to misinterpretation of the law, has had something of a quieting effect.

LULL IN EXCITEMENT.

The leaders of the agitation still talk of organizing popular protests, but the life seems to be out of the movement so far as Paris is concerned. Here the socialists have determined upon counter demonstrations to every clerical meeting. Some disturbances in the provinces, especially in Finistere are probable when the police close the schools, but there is evidently a lull in the excitement for the moment.

WOMEN ATTACK TEACHER.

The only incident reported today was that a group of women at Bodez, in the department of Aveyron, attacked a lay teacher and compelled him to take refuge in the communal school. The teacher was followed by a crowd shouting, "Down with Combes." The arrival of gendarmes prevented further mischief.

PROPOSED MERGER

NOT BELIEVED AT NASHVILLE THAT GOVERNOR WILL CON-VENE THE LEGISLATURE TO OPPOSE IT.

Nashville, July 30.—In accordance with the action of the transportation committee at its recent meeting on the subject of possible railway mergers, Chairman Dudley has appointed Mayor J. M. Head, E. R. Richardson, A. W. Willis, Tully Brown and S. Lieberman to investigate the recent rumors and consult with the governor relative to calling an extra session of the legislature. It is not believed here that an extra session will be called, although the governor will not talk.

THE TEMPERATURE.

Today the temperature was only 96 at its highest. Yesterday it was 95, but the heat seems to be felt more on account of the humidity.

TIME DRAWING NEAR

The Police Will Take Orders From Chief Collins Alone.

They Want to Hold Their Jobs and It Is Understood, Unless Enjoined, Will Obey Collins.

INJUNCTION SUIT NOT FILED

City Marshal James Crow has fixed no time for filing his injunction suit to prevent Chief of Police James Collins from entering into the discharge of his duties, but states that it will be in time to be served before Chief Collins attempts to assume charge.

It seems that the police will take their orders from Chief Collins, however. The latter, in case the suit is filed, will execute bond and proceed with the performance of the duties, and if Marshal Crow undertakes to hold on and direct the police until the final settlement of the case in the courts, the police will ignore him and obey Chief Collins.

The reason of this is that Chief Collins was appointed by the police board, and the police board did the bidding of Mayor Yeiser, who appointed the police and wants them to receive their orders from Chief Collins. Another thing is that the officers, who depend on the mayor and police board for their jobs and hope to be reappointed by them in December, will stick to the mayor and board, and not to the marshal, who has nothing to do with the appointments.

It seems that Marshal Crow is going to get the hot end of it, so far as the management of the police is concerned, but he intends to fight it in the courts just the same.

UNCOVERED A REMBRANDT

BOSTON MUSEUM OF FINE ARTS MAKES IMPORTANT DISCOVERY DURING HOUSE CLEANING.

Boston, July 30.—In course of house cleaning the Museum of Fine Arts finds upon the walls of its picture gallery three genuine Rembrandts instead of two. The new one has for a long time been ascribed to Rembrandt, but the authority was very doubtful and many experts have disputed its genuineness. It is "The Shower of Gold" from the story of Danae, and was lent to the museum, first by Francis Brooks and since his death by his estate. An artist while cleaning "The Shower of Gold" found in the lower left hand corner the signature, "Rembrandt-1652."

OVERDOSE OF MORPHINE

ENDED THE LIFE OF A YOUNG MAN WHO HAD MANY FEMININE STRINGS TO HIS BOW.

Mobile, Ala., July 30.—A young man believed to be Jack R. Westfield, of Wilmette, Ill., committed suicide in Monroe Park here today by taking an overdose of morphine. He left a note signed "Jack R. Westfield, Wilmette, Ill.," requesting that the finder notify Mr. Westfield at Wilmette, Ill. A number of letters from young ladies in Illinois were found in the young man's pockets, and three of them contained looks off-hair. The body is held here pending instructions from relatives.

THE PERFECT LIVER MEDICINE

Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at DuBois, Kolb and Co.

PECULIAR CASE.

THE PRICE OF A HOUSE RAISED BY BACK TAXES.

Covington, Ky., July 30—Peculiar complications have arisen in the case of Attorney H. P. Whittaker, of Covington, against John Oline, millionaire capitalist of Newport, which was decided in the former's favor by Judge Tarrin, of the Kenton circuit court Monday. Oline paid \$4,600 for a house five years ago, which was sold to satisfy a judgment. Whittaker has been living in it. Judge Tarrin decided that Whittaker had a real title to the property, and gave him the right to buy it at the original price. It is now discovered that unpaid taxes on the house raise the price to \$8,000, and both parties are now anxious to get out of it.

ASK \$5000.

SALOON MEN AT STURGIS SUE THE TOWNSHIP.

Sturgis, Ky., July 30—W. J. Alvey, assignee Tom Edmonson and Ed Fowler have filed suit in the Union circuit court for \$5,000 against the town of Sturgis for damages and recovery of back license, which was paid in advance and which, it is alleged, was made void and lost by reason of a court ruling that deprived plaintiffs of further operation of the saloon business at Sturgis.

AGAIN IN DURANCE VILE

PADGETT'S BONDSMEN GAVE HIM UP YESTERDAY AFTERNOON.

W. B. Padgett, former poor house keeper, and who was held to answer in the sum of \$750 Monday for alleged attempted criminal assault on Mary Poe, the blind girl, was yesterday afternoon late given up by his bondsmen, and is back in jail. Justice Jack Sheehan was one of his securities, and it seems with the other bondsmen became suspicious that Padgett intended to leave the city, and turned him over to the authorities again. He will have to remain in jail until the September term of court unless he secures other bondsmen.

SUPERINTENDENT OF TRANSPORTATION HIGGINS WAS HERE TODAY.

Mr. J. W. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at DuBois, Kolb and Co.

AFRICAN BLUE BOOK

SHOWS THAT CHAMBERLAIN AGREED TO PROPOSAL FOR BROTHERLY LOVE COUNCIL.

London, July 29—A South African blue book, which has just been issued, shows that Joseph Chamberlain, the colonial secretary, consented to the proposal made Lord Milner, British high commissioner in South Africa, to take advantage of the good feeling prevailing between the Dutch and the British to make immediate announcement that the legislative councils of the new colonies, the Transvaal and the Orange River, shall be enlarged by the addition of non official members and that the enlarged councils meet as early as possible, the month of September being suggested for this purpose. Lord Milner, it is learned from the blue book, admits that he previously believed such early legislative co-operation between the two nationalities to be impossible.

GOT \$2500

THE JURY GAVE THIS AMOUNT TO ROBERT POTTER YESTERDAY.

Another one of the railroad condemnation suits was finished yesterday afternoon late in county court, Robert Potter, whose property was appraised at \$2,000, being awarded \$2,500. In every verdict the property owner has been given more than awarded, and on exceptions filed by the railroad company.

BROKEN IN CELL

ELI HUTCHINSON SUFFERING FROM A FRACTURED ARM.

Eli Hutchinson of the lower part of the county, who is in jail charged with killing his brother-in-law, Henry Gray, had his right arm broken yesterday afternoon while the cells were being revolved. The deputy jailer, as customary, shouted for everybody to look out, as he started the cells to revolving, but Hutchinson thoughtlessly thrust his hand between the bars and his arm was badly mangled. County Physician Pendley dressed the injury.

The work of building the steam plant and two dormitories will be begun at once.

BRYAN HELPS REPUBLICANS

CHAIRMAN BABCOCK PLEASED BY HIS RECENT SPEECHES IN THE EAST.

Washington, July 30—Representative Babcock, chairman of the Republican congressional committee, is in Washington today. He states that the prospects for the Republicans electing a majority in the next house are exceedingly bright.

"Mr. Bryan," said Mr. Babcock, "has done much to help the Republicans by his trip east. He has raised once more the old spectre of free silver, and spoiled all prospects of harmony. The Democrats are entirely split up, and where there were prospects of harmony some weeks ago, all this has disappeared, and they are utterly at sea, without a policy or issue, and this is all due to Mr. Bryan."

The Republicans welcomed the tariff as an issue, and would be glad to have another campaign on it.

GEN. BRAGG'S COMMENT

CUBANS FILE COMPLAINT AND PRESIDENT EXPECTED TO ACT.

Washington, July 30—It is now learned that the Cuban government went a little further in Gen. Bragg's case than was understood at first. It not only made inquiry as to the accuracy of the quotations reflecting on the Cubans, but complained of the counsel general's criticism. The papers in the case are still before the president at Oyster Bay, but some action is expected shortly, either in the way of recalling the counsel general or transferring him to some other post, if a suitable one can be found.

MALARIA An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy. Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.

The fire committee of the general council met last night and decided to award the contract for 4,000 feet of cotton hose to the Dubuque Rubber company, of Dubuque, Ia., at 49 cents a foot, a total of \$1,960.

The company was notified by telegraph this morning and if it accepts and signs the guarantee, the hose deal will have been closed. The guarantee was sent yesterday, and stipulates that the hose purchased from the company shall stand a pressure of four hundred pounds on delivery, and the fire pressure of the local water company for forty-eight months thereafter. The water pressure is 100 pounds on an average.

It is not known whether the company will sign this guarantee or not. If it does, it will telegraph the committee and ship the hose at once.

Dogtown has for years been the habitation of the most indigent and criminal classes, but they have now been notified that they will all have to go at once.

A Royal Proclamation Has Been Issued.

Yet There Is Still Uncertainty and May Be Postponed.

New York, July 30—Coronation seats cannot be sold, even at reduced prices, and there is a steadily increasing feeling of uneasiness respecting the king's condition, cables the London correspondent of the Tribune. Outwardly there is every indication that the coronation will occur in a fortnight. Medical bulletins are favorable, rehearsals are in progress, proclamations have been posted, the processes of redecorating the approaches to the Abbey have been resumed, and preparations are making for the naval review, but notwithstanding all these signs of optimism there are persistent reports that the coronation will be deferred a second time.

There are, unfortunately, strong reasons for believing that the queen, the Prince of Wales and others of the royal family are dreading the necessity of a second postponement, yet they are not prepared to assume responsibility in advising it, since they fear that the mental effect upon the patient would be serious. The most hopeful thing is the fact that the general impression is the coronation will not occur, and consequently that the expected is likely to happen.

FORCED TO GIVE UP

Alleged Mexican Embezzlers Had to Disgorge \$2,000,000.

They Are Said to Have Secured It By Fraud and Conspiracy.

WE APPLIED THE SCREWS

Washington, July 30—United States Ambassador Clayton, at Mexico, has succeeded in securing restitution in one of the largest embezzlement cases before the Mexican state department.

Some time ago James Brown Potter, representing large American and English interests in the Tlahanillo Mining company of Mexico, appealed to the state department for justice, claiming that by a fraudulent conspiracy some of the directors of the company had embezzled funds to the amount of over \$2,000,000. This it was charged was accomplished by packed elections and the bestowal of illegal powers upon one of the directors of the company.

The fact that some inferior Mexican officials were involved in the conspiracy made it almost impossible to obtain justice by the ordinary methods. The state department referred the case to Ambassador Clayton, and he brought it to the attention of the Mexican government and pressed it so vigorously that he is now able to report that the conspirators have been obliged to disgorge all of the money and securities they had obtained by their fraudulent operations.

AMERICANS MASSACRED.

TWENTY-THREE NATIVES OF MINDORA ON TRIAL FOR THE CRIME.

Washington, July 30—Manila papers received at the war department give an account of the beginning of the trial of twenty-three natives in the island of Mindora who are charged with killing four Americans. The names and identity of the Americans could not be obtained. From one of the 23 men arrested a partial story of the massacre has been obtained. The four Americans approached the shore of Mindora in a boat, and as soon as they landed the natives attacked them, putting all to death and mutilating them. The bodies then were put in the boat and cast adrift. The finding of the boat by Americans led to the discovery of the crime and confessions from some of the natives gave such facts as have been obtained.

TO SECURE CLAIM

SUIT FILED AGAINST ADMINISTRATOR OF EX-SHERIFF'S ESTATE.

Attorneys Moss and Moss this morning filed a suit in circuit court for the commonwealth of Kentucky, for the use and benefit of Adam Temple, against Mrs. Mary Ellen Rogers, administrator of the estate of the late Sheriff Tobe Rogers, and others.

The suit is brought to recover an execution of \$290 which the sheriff failed to return to court. The execution was placed in his hands, the petition states, to levy in case of Adam Temple against Warford and Green, of the Mason, Mill section, and the execution was never levied or returned to court and the suit is the only means left to secure the claim.

AMERICAN MEDICAL COMMISSION IN CUBA REPORTED TO HAVE MADE DISCOVERY.

Havana, July 30—At today's meeting of the cabinet, Diego Tayama, secretary of the government, announced that the American Medical commission, which is at Vera Cruz studying yellow fever, was of the opinion that it had discovered the cause of the disease, and that he had decided to write the commission and ask if it was disposed to give the Cuban government any information in the matter. If the reply of the commission is favorable the cabinet decided to send Dr. Guiteras to Vera Cruz to learn the nature of the commission's discovery. Dr. Guiteras' expenses are to be paid.

FACTS ABOUT THE HOSE DEAL.

The hose deal has probably been
made, although it is not yet settled,
owing to the fact that the guarantee
exact by the city has not yet been
signed. The contract is probably in
most ways not near so satisfactory as
would have been the one with the Na-
tional India Rubber company, which
the city broke. In that deal the city
was to pay \$2,625 for 2,500 feet of
rubber hose, guaranteed to stand a 400
pound pressure for five years, which
would make them as good as new or
insure the city new hose, at the end of
that time. As a result of its present
deal the city gets the worst of the
bargain. It was made necessary, on
account of the delay occasioned by the
negotiation of the other order, to
purchase emergency hose, which
had not yet arrived. The city bought
1,000 feet of the hose at 81 cents, a
total of \$810. The committee subse-
quently decided to purchase cotton
hose, and at 49 cents had to order 4,-
000 feet or double the quantity of rub-
ber hose, making the cost of this hose
\$1,960. It is therefore seen that the
city, instead of buying the 2,500 feet
of rubber hose and paying \$2,625 for
it, has had to pay \$2,770 for 4,000 feet
of cotton hose and 1,000 feet of rubber
hose, and its guarantee is not so good.

The cotton hose is acknowledged to
be inferior to the rubber hose, and
the guarantee for a 400 pound pres-
sure is only on delivery, and after
that it is required to stand only the
fire pressure, which is 100 pounds,
never over Supt. Minscoe Burnett
states, as men cannot handle a
stream when the pressure is strong-
er. The city has more hose, it is true,
but only half of the cotton hose can be
in use at a time, which is why it be-
came necessary to purchase double the
amount that would have had to be
bought had rubber hose been selected.
It is clear that with the 5,000 feet
of new hose bought only 3,000 feet
of it can be used at one time, the
1,000 feet of rubber hose bought at
81 cents, and 2,000 feet of the cot-
ton hose at 49 cents, thus giving the
city 3,000 feet of available hose, at a
cost of \$2,770, with a guarantee that

In a little while the first firm will
soon be far ahead of orders, carrying
finished goods into the next year,
while their competitors have orders in
advance. In the second case times
will always be dull and expenses will
eat up profits. What each needs is
additional business. Here is a key-
note of success in the opening sen-
tences in an advertisement of a Chi-
cago department store:

is not so long as the one they got with
the \$1.05 hose, and not near so good,
as after delivery the pressure it will
have to stand will be only 100 pounds
for four years, instead of 400 pounds
for five years, which was the agree-
ment with the \$1.05 purchase. In
addition to the above the city has,
on account of the countermanding of
the first order, been without fire
hose, practically, for several weeks,
where she would have had it had
the first contract been filled, thus
endangering all the property in the
city and possibly causing some of
the fire loss during the past three
or four weeks. And at present she
is still without hose, and it is by
no means certain that the company
to which was let the contract last
night will sign the agreement for-
warded, in which event the whole
proceedings will have to be gone
over again, and the city remain with-
out fire hose indefinitely. You can
juggle with figures and facts, but you
can't change them.

The intelligent voters of this coun-
try are not to be fooled on the tariff
question. The man who is to be pro-
tected by tariff is the man who pro-
duces, the laboring man, and the man
who enables him to produce, the man
of management and capital. The
farmer raises all he needs and does not
require legislation so much as the con-
gested myriads of city toilers, who
instead of raising food, must work to
earn money with which to purchase it
and the other necessities of life. The
question with the worker in the city
is not so much what he is to pay for
an article as where he is going to get
something with which to pay for it.
It would make no difference to him
whether he had to pay 50 cents for a
hat without tariff, or a dollar with
tariff, if he had nothing with which
to buy it. He must work for the 50
cents or the dollar, and the demand
for his work would depend on the de-
mand for whatever he made. This de-
mand is increased by shutting out
cheap goods from Europe, and to
shut them out is the object of the
tariff—a measure or principle that
helps the manufacturer, and through
him the working man. The Democrats
cannot fool the intelligent voter on the
tariff.

"I'll bet the Democrats have lost a
thousand votes in Paducah in the past
six months by the way they have been
acting in the management of city
affairs," declared a prominent Demo-
crat yesterday. "They'll have to
change the quality of their candidates
hereafter if I vote the ticket again." This
feeling seems to be general
throughout the city. There is univer-
sal disgust everywhere. The people
are not too exacting, but on the con-
trary are charitable and willing to
make all allowances when people do
their best. They do not believe that
the officers are doing the best they
can, or want to do the best they can.
They have never made any effort to
do so, and as long as the public has
indisputable evidence to this effect its
disgust will continue to grow.

If the present hose contract is filled
and the emergency hose is accepted,
Paducah will have 5,000 feet of fire
hose costing \$2,770. As half of the
cotton hose has to dry out while the
other is in use, only 2,000 feet will
usually be available for service, giv-
ing the city 3,000 feet of hose to use
at a cost of \$2,770, instead of 2,500
feet at \$2,625, guaranteed to stand a
four hundred pound pressure for five
years. The new hose is guaranteed to
stand a pressure of hundred pounds
for four years only. Thus are the busi-
ness methods of the administration.

Primary elections in New Jersey
last only three hours, and yet one at
Camden Monday resulted in a riot,
one murder and several injuries. Evi-
dently it is very good for the people
there that their elections do not last
as long as ours do here in Kentucky,
where we hold forth all day—and
fight all day too, if necessary, some-
times.

It begins to look as if with the
country juries that are imported to try
the railroad condemnation suits, the
railroad is going to get beautifully
skinned. The farmers seem disposed
to give the property owners whatever

they want, instead of what the prop-
erty is reasonably worth.

It is announced that the gover-
nor offered a reward of \$200 for one
Mayfield man, and \$100 for another,
both having broken jail. If this is
true, it indicates that Graves county
is still working its graft on the state.

"Don't shoot the fiddler. He's do-
ing his damndest" may be a pretty
good motto to hang over the council
chamber, but the people do not seem
to fully appreciate "his damndest."

Paducah will probably get her new
fire hose about the same time the
Levy habeas corpus case is tried. It is
to be hoped we will all still be here
then.

The Democratic appellate conven-
tion has been over a week now, but
there are a whole lot of fellows who
will be sore over it for a long time yet.

The public printing job seems to
be a mantle of charity that covers a
multitude of councilmanic sins.

SAID HE WAS TRACY.

AND OFFICERS FIXED HIM SO
HE COULDN'T BE IDENTI-
FIED BY FRIENDS.

Seattle, Wash., July 30—William
Nixon tried to win a woman's con-
fidence in the guise of outlaw Tracy
and is nearly dead as a result of his
act. He told an actress in a music
hall that he was none other than the
desperado, and threatened her life if
she told. Later, when he re-entered
the theatre, he was attacked by a
policeman and the proprietor, Joe Wil-
liams, a brother of Deputy Sheriff
Jack Williams, who was wounded in a
battle with Tracy at Bothell July 3.
He was pounded into insensibility, and
has not fully regained his faculties yet.

The mistake was discovered when
the man's features were compared
with a photograph at police headquar-
ters. It is almost a miracle that the
policeman did not shoot first and in-
vestigate afterward, as he was told
positively that the man was Tracy,
and a reward of nearly \$7,000 is
offered for the desperado, dead or
alive.

CAPT. WILD.

REPRIMAND OF GEN. CHAFFEE
RECEIVED AT WASHINGTON.

Washington, July 30—The action of
General Chaffee in reprimanding Cap-
tain Frederick S. Wild, Thirtieth in-
fantry, upon the sentence of a court
martial, has been received at the war
department. Captain Wild was in
command at Lingayen, where a cock-
pit was burned, two soldiers of the
command having been previously
stabbed in the cockpit. It was gen-
erally understood that the cockpit was
burned by the soldiers in revenge. It
was brought out in the testimony
that Captain Wild had been requested
by the civil authorities to place a
guard over the property after the first
attack and failed to do so, and a second
attempt at burning resulted in its
destruction.

\$2,000 DAMAGES

SUIT TO BE FILED FOR DAM-
AGES TO THE REGISTER.

Attorneys Hendrick and Miller ex-
pect to this afternoon file a suit
against Mr. Joseph Friedman for
\$2,000 damages.

Last winter the defendant had the
roof taken off the building occupied by
the Register in order to make an addi-
tional story, and during that time rain
came and drenched the contents of the
Register Publishing company, which
occupies a part of that building. For
the damage to the press, type and ma-
chines, and also to the paper and other
equipments, the plaintiff asks \$2,000.

time he had not succeeded. He has

friends to sign the bond, but only one,
a Mr. Sellers, had appeared and affix-
ed his name to the bond.

CONSULS THREATENED

Cape. Haytien is Reported Held by
a Mob.

A Bombardment is Feared, and Pre-
cautions Taken for Protection.

Washington, July 30—Commander
Henry McCrea, commanding the Ma-
chias, cabled the navy department to-
day that Cape Haytien was in the
hands of a mob, that the foreign con-
suls had been threatened, that he had
offered them protection on board the
Machias, and that he had forbidden
the rebels to bombard the city with-
out due notice.

This situation was at once commu-
nicated to the state department by the
bureau of navigation. Commander
McCrea's acts were approved by the
state department, and he will, to the
extent of his ability, see that the
American citizens in Cape Haytien are
protected, and that there shall be no
indiscriminate shooting by Admiral
Killick's little gunboats into the city.

Admiral Killick has been declared a
pirate by the acting president of Hay-
ti, and he has also informed all na-
tions.

Admiral Killick has with him or
has sent to Cape Haytien probably two
or three light draught gunboats, for
which the Machias alone is a match.
The Machias is of 1,177 tons burden
and carries eight guns in her main
battery. She has a steel hull and
could, unaided, blow the "pirate
fleet" out of the water.

The fact that McCrea has cabled
that he intended to prevent a bombard-
ment shows that a bombardment has
been anticipated without the notice
to non-combatants. Killick would
be dealt with severely if he carried
out his threat. Admiral Killick is
co-operating with Gen. Firmin, the
revolutionary leader, who is march-
ing on Port Au Prince, where there
is another crisis. A part of Fir-
min's forces are approaching Cape
Haytien.

The Machias apparently arrived
during an emergency. Had other ves-
sels been there it would not have been
necessary for Commander McCrea to
offer asylum to foreign consuls of all
nations. It is believed that the con-
suls have cabled the nearest stations
for aid. There is a French cruiser at
Port Au Prince, and the nearest Ger-
man and English vessels are said to
be at LaGuayra and Kingston respec-
tively.

While Commander McCrea can
stop the naval bombardment, it is not
clear what he could do with the land
bombardment and the anarchy in the
city. The belief here is, how-
ever, that if he received a call from
the city he would not hesitate to take
his ship in and land all the force he
could spare for the protection of the
white people of the city. He would
do this without waiting orders from
Washington.

MANY SHOTS

GANG OF RIVER THIEVES CAP-
TURED YESTERDAY.

Metropolis, Ill., July 30—A band of
river thieves who have been operating
all along the Ohio river for weeks and
taking everything in the way of boats
and rafting equipment which they
could find, were captured near here
yesterday afternoon hidden in a lump
of willows near the edge of an island.

A yellow skiff which they had not
entirely hidden disclosed their hiding
place. They made a bold resistance
and several shots were exchanged be-
tween them and their captors. They
are now in jail awaiting the action of
the grand jury.

This is the gang Henry Henderson,
held here today, is supposed to belong
to.

A MONSTER TRUST

The Great Oil Interests Reported to
be Consolidated.

Rockefeller and Nobel Have Allied
Themselves With the House
of Rothschilds.

NO PUBLICITY WAS AROUSED

London, July 30—In its issue this
morning the Daily Mail declares there
is no longer any doubt that the three
monster coal oil interests of Rocke-
feller, Rothschild, and Nobel have
entered into a working agreement.
"Thus," says the paper, "without any
publicity the greatest trust the world
has ever seen has sprung into being."

This combination, says the paper,
has been hinted at in messages from
Batoum and Moscow, and it has been
more clearly shown in the offers made
to Russian oil exporters by representa-
tives of the Nobel and Rothschilds' interests for the absorption of the
whole of their output. The exporters
have been forbidden to sell through
the agencies of these interests at a
price arranged by them, or to fight the
combined forces of the three oil
grants.

This offer was made openly and
with the idea of maintaining prices,
and it has been refused, the Russian
exporters preferring to fight. It was
doubtless this combine, continues the
Daily Mail, which induced the Rus-
sian government to issue invitations
to an anti-trust conference.

TO INVESTIGATE

Board of Aldermen Meet Tonight at
City Hall.

Will Air the Charges Against the
Matron of the City Hospital.

The board of aldermen will meet
tonight at the city hall to investigate
the charges against Mrs. Sarah Bir-
chett, keeper of the city hospital.

"The meeting will be a regular
trial," one of the aldermen said this
morning, "and if the charges prove
true, then she will of course be dis-
charged from her position. We will
hear all evidence regarding the case
and if she brings any charges against
any other officer in the employ of
the city, then those charges will
be investigated the same as those
against her. The matter will be
thoroughly aired and we intend to sit
things to the very bottom."

When asked if there were any ap-
plicants for the position he said that
"officially" there were none, but
that the place would not go vacant
long in case the present keeper was
discharged.

There will be a number of persons
present to hear the investigation who
are not directly interested in the
matter and the result will be watched
with much interest.

JENKINS IS LOCATED.

James Jenkins, the young stock
broker who left the city last week for
parts unknown after suddenly closing
out his business here, has been lo-
cated. It is said that he is running an
office in Tiffin, O., and also another
in Missouri. No effort has been made
to apprehend him by the local dealers
who bought stock in his office. He is
alleged to have skinned them before,
and they didn't know when they had
enough.

ber of the Methodist church and

EXTENSIVE IMPROVEMENTS

Palmer House Being Liberally Sup-
plied With Them.

Old Standard Office Building to be Re-
modeled—Laundry Contract.

Extensive improvements are being
made on the Palmer house. The top
floor is being supplied with new car-
pets throughout, and the entire house,
where it is needed, is being papered.

A new floor is being placed in the
dining room, and also in the billiard
room, the latter to receive a number
of other improvements when the floor
is in. The steel ceiling is to be re-
paired and repainted, and when com-
pleted the changes will have cost over
\$1,000. It is expected to finish the
work in a few days.

Contractor George Ingram will in a
few days begin the work of remodel-
ing the old Standard office building on
North Fourth street between Broad-
way and Jefferson. A new pressed
brick front will be placed in, new tile
floor and it will be made into a mod-
ern building, the cost to be nearly \$3,-
000. It is owned by Mr. Adolph
Weil, and McNulty Brothers will con-
tinue to occupy it.

The new laundry company expects
to let the contract for its new build-
ing this evening. The structure will
be erected at Fifth and Jefferson and
will cost several thousand dollars.

PINCKNEY BACK

The First Thing He Did Was to Get
Into Jail.

Henderson Held and Will Return to
Illinois Without a Requisition.

Judge Sanders had only three cases
to try this morning and disposed with
the business in short order.

Pinckney Childers, white, who had
been absent from the city since the
severe storm last winter, turned up and
was last night arrested on a petty lar-
ceny charge brought against him at
the time he skipped out by a man
named Berger, residing on North
Sixth street. Berger claimed that
Childers stole some furniture from
him and the warrant had been in
the hands of the officers waiting to
be served since that time. He was
held to await the action of the grand
jury in September.

Henry Henderson, the white river
man arrested Saturday on a grand lar-
ceny charge, was held over and will
be returned to Illinois without a re-
quisition. He is charged with stealing
a skiff and a lot of junk at Metropoli-
s and other landings along the river.
He agreed to return without a re-
quisition. The police think they have
caught a river pirate of the worst
type.

John Britton, white, was fined \$1
and costs for drunkenness.

ROTTGERING CASE

ANOTHER RAILROAD TRIAL IN
PROGRESS TODAY.

The condemnation suit of W. H.
Rottgering is on trial today before
County Judge Lightfoot.

The commissioners appraised his
property at \$1,500, but he wants
\$4,500. There are many witnesses in
the case and all sorts of profile draw-
ings are being used. The railroad
suits are all carefully conducted and
every detail, no matter how small, is
brought out, which takes a great deal
of time and makes the cases very ted-
ious.

The Hand of Fate.

People who think that they see the
hand of fate in everything that hap-
pens are surprised when they find out
that it is only their own hand after
all of which they have been submis-
sively standing in awe. Our fate is
largely what we ourselves make it.

A. S. HAWKINS, Mgr.

NEVER TOUCHED HIM.

Mr. Fred Smith, the popular clerk at B. Weille's, ought to make a success on the stage. Stage fright seems to be something that he has no conception of. He took a part last night in "True Irish Hearts" at La Belle park. It was his first appearance with professionals in the drama, and he has cause to feel proud of its success.

A crowd of his friends went out from the city fully prepared for the occasion. They were, loaded to the guards, as they say in steamboat parlance, with fully matured vegetation of every description. In addition, they had carefully concealed horticultural specimens of various hues and shapes. They took front seats and waited for the critical moment. The performance went smoothly and Mr. Smith was doing immensely. Finally when he got the center of the stage the constellations began to fall.

There was a perfect shower of cabbage, beets, carrots, sun flowers and divers other things. Mr. Smith proved an artful dodger, however, and could truthfully say, when the stock of vegetation was exhausted "Never touched me." It was an extremely funny sight, but it never teased Mr. Smith, who took it all in the same good natured way that it was offered. He retained his composure admirably, and the laugh was finally on the practical jokers.

The actors present say it was the only demonstration of its kind they ever saw, and they have seen a great many demonstrations.

There was fortunately no hen fruit in Mr. Smith's outfit of floral offerings.

The contract will be let to the lowest and best bidder and the library building committee reserves the right to reject any and all bids.

MARRIED TODAY

Mrs. Rowena Rivers and Mr. Jacob Hirsch United.

A Pretty Home Wedding Witnessed by Friends of the Couple.

A pretty home wedding was that of Mrs. Rowena Trainum Rivers and Mr. Jacob Henry Hirsch of Jackson, Tenn., this morning at 11 o'clock. A number of friends witnessed the ceremony, which was happily performed by the Rev. W. H. Pinkerton of the First Christian church in the prettily decorated parlor of Mrs. River West Jefferson street home.

The bride entered with her nephew, Mr. Ernest Reid of Clinton, Ky., and the groom with his best man, Mr. Adamson of Jackson, Tenn. She wore an artistic gown of tan tulle trimmed in medallions and moire ribbon and hat to match, and looked very handsome. Immediately after the ceremony the couple left for St. Louis from which they will go on an extensive bridal trip through the west to San Francisco and Seattle.

The bride is a bright and agreeable woman, and has been a leader in church and the various philanthropic work in the city. She is very popular and will be greatly missed here.

The groom is a prominent business man of Jackson, Tenn., and is well known in Paducah.

Mr. and Mrs. Hirsch will make their home in Jackson, Tenn., returning there after September 15. They have the best wishes of a host of friends in their new life.

Mr. L. O. Hawkins of Lima, O., and Miss Eva Hutchinson, of the city, were married last night at 9 o'clock at the home of the bride on South Eleventh street by Rev. Robinson of the Second Baptist church, quite a number of people being present. The bride is a daughter of Mr. and Mrs. W. T. Hutchinson, and the groom formerly lived here. They will reside at Lima.

The La Belle Park Stock company last night presented "True Irish Hearts" to a large and well pleased audience. In the cast were Messrs. H. J. The performances are partially for the benefit of Central Labor union, and are first class in every particular.

The indications are for another large crowd tonight and during the remainder of the presentation of the play.

JUDGE LIGHTFOOT'S NOVEL SENTENCE.

County Judge Lightfoot is a hustler, as well as a diplomat. He does not believe in wasting time on anything unnecessary, making him a vast improvement over some of his slothful predecessors.

The other afternoon Judge Lightfoot started home, when he was stopped on the court house steps by a deputy jailer with a grinning negro.

"Judge," deferentially ventured the officer, "this prisoner wants to be tried for stealing."

"Guilty?" asked the judge, as he looked at the man and hardly halted.

"Yes," admitted the culprit.

"Sixty days," ordered the court as he passed on, and the man was taken back over to the jail, doubtless the only one ever sentenced in the court house yard of McCracken county. It was the only trial he ever received and the next morning a mitimus was sent over, the judge's impromptu court proving just as effective as if held in the gilded chamber of some supreme court. The man is now serving his time.

The judge issued a warrant against one of the county officers the other day, declared his place vacant, set the time for trial, and called fiscal court together to sustain him. Two investigations were hunched into one, and in three days the erstwhile officer was held to answer, his successor elected and in his place, and the judge looking about for something else to rush through.

SAVED AGAIN

MRS. BUD NANCE ATTEMPTED TO END HER LIFE.

Mrs. Bud Nance of West Court street took 10 cents worth of morphine last night early with suicidal intent, but was found in time to save her life by Drs. Otis and Robertson. Domestic troubles are supposed to have prompted the deed, and it is the second attempt, the first having been made last winter while she resided on South Fifth street. It is said her husband neglects her.

INJURED IN CHICAGO FIRE.

WAREHOUSE DAMAGED TO THE EXTENT OF \$75,000.

Chicago, July 30—Several persons were injured in a fire here which damaged the two warehouses of the McCormick Harvesting Machine company at Blue Island and Western avenues to the extent of \$75,000. The fire was a smoldering one with much smoke, and gave the firemen a hard fight. It is not thought anyone was fatally hurt.

GOOD REWARD.

ED CARTER WAS WORTH \$200 TO THE STATE.

There was a reward of \$200 for Ed Carter and \$100 for the arrest of Bill Hollier, who broke jail at Mayfield. Carter was arrested at Louisville and it is supposed Hollier is under arrest at Nashville by this time, Marshal McNitt having gone after him yesterday.

PRINTING COMMITTEE MET.

There was a meeting of the printing committee of the general council yesterday afternoon at the city hall, but no report has yet been prepared. It is understood that the committee will recommend that the city pay only three cents a line for the printing. The printing of the old minutes of the council by the public printer is explained to be only for the purpose of being on the safe side, and that no effort was to be made to collect from the city for it.

The New Easter Bonnet.

Ain't no Easter bonnets now like what they use to be—

They ones they looked so sweet in the old-time boys' eyes—

They fix 'em up in finer style—with r—

linery around;

Ain't nothin' like our sweethearts wore when you an' me was young!

Ain't nothin' like the bonnets of the old days in the dells.

When we heard the hallooing of the welcome Easter bells;

Thar wasn't so much color then, lovin' of the view,

But yer sweethearts wore the lilacs an' the violets fer you!

An' jest a plain bright bonnet, that was stylisher to me.

Thar all the millinery I shall ever live ter see!

Yer sweethearts smiled beneath it—a picture framed in white,

In fields "arrayed in livin' green"—by "rivers of delight."

It's right enough ter wear 'em, fixed up with this an' that—

With a poor, stuffed bird a-starin' from the middle of the hat;

But fer me they're no attraction, in the fannin' winders hung—

I aigh fer them our sweethearts wore when you an' me was young.

—F. L. Stanton, in Atlanta Constitution.

When Ephrum Hoo the Blues.

When Ephrum Hoo the blues he's awful blue.

If twan't fur me I do know what he'd do.

He's blue all over like a cloudless sky,

An' he's blue clear through like a bluebird's pie.

An' sech blues as he gets in 'is head!

He fairly worries himself sick-a-bed.

"Nothin's right, an' it ain't again!" ter be;

What's the use o' tryin' ter live?" se he.

But, land! I speak up to 'im kind o' brisk,

An' bustle round givin' things a whisk—

Not doin' much, but makin' 'is life o' ease,

An' tellin' 'im things ain't so bad's they were.

Not by a lona sight; an' through thick an' thin

I keep it up, an' never once give in.

An' by an' by he comes out good as new,

An' nobody'd mistrust that he'd been blue.

What? Am I ever blue myself, you say?

Oh, yes, I sometimes hev a real blue day.

But you don't think, I hope, I'm sech a dunce

As ter hev me an' him both blue ter once!

—Mary M. Currier, in Springfield (Mass.) Republican.

Her Coming Out.

In her dainty hat and feather,

In her pretty modish gown,

All to match the blithe spring weather,

Come out, my honey maid to town;

And the swains who follow after,

As the fair one walks before

Listen for her sweet low laugh.

Leave their greetings at her door.

'Tis the same old simple story

Told in every century's ear;

Stronger far than fame or glory

Is the spell she weaves there.

Just by looking dear and pretty,

In her dainty Easter gown,

She can win the whole wide city

When our maiden comes to town.

Coming out when pussy-willows

Nod beside the dancing rill,

When the violet stirs the pillows

Of the green moss on the hill;

Coming when the winds together

Sing for mirth and tell of spring,

Welcome, maid and birds and weather,

Flower and dimple, glance and wing.

—Harper's Bazar.

Relly Wings.

The wing that lifts the bird on high

Makes easy its descent,

That it in earth, or fair blue sky,

May make experiment.

So, winged by faith, impelled by love,

Our eager souls may go

Alite to seek a Heaven above

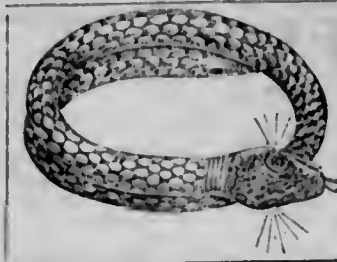

Or breen a world below.

—C. A. S. Dwight, in N. Y. Observer.

THE COURIER OF THE CZAR

By Jules Verne

CHAPTER I.

"SIRE, a fresh dispatch." "Where?" "From Tomak." "Is the wire cut beyond that city?" "Yes, sire, since yesterday."

"Telegraph hourly to Tomsk, general, and let me be kept informed of all that occurs."

"Sire, it shall be done," answered General Kissoff.

These words were exchanged about two hours after midnight, at the moment when the fête given at the New palace was at the height of its splendor.

An hour later General Kissoff, who had just re-entered, quickly approached his majesty.

"Well?" asked the latter abruptly, as he had done the former time.

"Telegram reach Tomsk no longer, sire."

"A courier this moment!" And, leaving the hall, his majesty entered a large antechamber adjoining.

The czar had not so suddenly left the ballroom of the New palace when the fête he was giving to the civil and military authorities and principal people of Moscow was at the height of its brilliancy without ample cause, for he had just received information that serious events were taking place beyond the frontiers of the Ural. It had become evident that a formidable rebellion threatened to wrest the Siberian provinces from the Russian crown.

Asiatic Russia, or Siberia, covers a superficial area of 1,700,000 square miles and contains nearly 2,000,000 of inhabitants. Extending from the Ural mountains, which separate it from Russia in Europe, to the shores of the Pacific ocean, it is bounded on the south by Turkistan and the Chinese empire, on the north by the Arctic ocean, from the sea of Kara to Bering strait. It is divided into several governments or provinces, those of Tobolsk, Yeniseisk, Irkutsk, Omsk and Yakutsk; contains two districts, Okhotsk and Kamchatka, and possesses two countries, now under the Muscovite dominion—that of the Kirghia and that of the Tshouktshas.

Two governor generals represent the supreme authority of the czar over this vast country. One resided at Irkutsk, the capital of western Siberia. The river Tchouba, a tributary of the Yenisei, separates the two Siberias. No rail yet furrows these wide plains, some of which are in reality extremely fertile. No iron ways lead from these precious mines which make the Siberian soil far richer below than above its surface. The traveler journeys in summer in a kibitka or telga; in winter, in a sledge.

An electric telegraph, with a single wire more than 8,000 versts in length, alone affords communication between the western and eastern frontiers of Siberia. On issuing from the Ural it passes through Ekaterinburg, Kasimov, Tiumen, Ishim, Omsk, Elamak, Kalyan, Tomsk, Krasnolinsk, Nijni Udinsk, Irkutsk, Verkhne-Nortchinsk, Strelitz, Albazine, Blagowestensk, Radde, Orlonskaya, Alexandrowskoe and Nikolaevsk, and 6 rubles and 10 copecks are paid for every word sent from one end to the other. From Irkutsk there is a branch to Khatka, on the Mongolian frontier, and from thence, for 30 copecks a word, the post conveys the dispatches to Peking in a fortnight.

It was this wire, extending from Ekaterinburg to Nikolaevsk, which had been cut, first beyond Tomak and then between Tomak and Kalyan.

This was the reason why the czar, to the communication made to him for the second time by General Kissoff, had only answered by the words, "A courier this moment!"

The czar had remained motionless at the window for a few moments when the door was again opened. The chief of police appeared on the threshold.

"Enter, general," said the czar briefly, "and tell me all you know of Ivan Ogareff."

"He is an extremely dangerous man, sire," replied the chief of police.

"He ranked as colonel, did he not?"

"Yes, sire."

"Was he an intelligent officer?"

"Very intelligent, but a man whose spirit it was impossible to subdue and possessing an ambition which stopped at nothing. He soon became involved in secret intrigues, and it was then that he was degraded from his rank by his

highness the grand duke and exiled to Siberia."

"How long ago was that?"

"Two years since. Pardoned after six months of exile by your majesty's favor, he returned to Russia."

"And since that time has he not revisited Siberia?"

"Yes, sire, but he voluntarily returned—there," replied the chief of police, adding and slightly lowering his voice, "There was a time, sire, when none returned from Siberia."

"Well, while I live Siberia is and shall be a country whence men can return."

The czar had the right to utter these words with some pride, for often by his clemency he had shown that Russian justice knew how to pardon.

"Did not Ivan Ogareff," asked the czar, "return to Russia a second time after that journey through the Siberian provinces, the object of which remains unknown?"

"No, sire."

"And have the police lost trace of him since?"

"No, sire."

"Where was Ivan Ogareff last heard of?"

"In the province of Perm."

"In what town?"

"At Perm itself."

"What was he doing?"

"He appeared unoccupied, and there was nothing suspicious in his conduct."

"Then he was not under the surveillance of the secret police?"

"No, sire."

"When did he leave Perm?"

"About the month of March."

"To go?"

"Where is unknown."

"And since that time it is not known what has become of him?"

"No, sire, it is not known."

"Well, then, I myself know," answered the czar. "I have received anonymous communications which did not pass through the police department, and in the face of events now taking place beyond the frontier I have every reason to believe that they are correct."

"Do you mean, sire," cried the chief of police, "that Ivan Ogareff has a hand in this Tartar rebellion?"

"Indeed I do, and I will now tell you something which you are ignorant of. After leaving Perm Ivan Ogareff crossed the Ural mountains, entered Siberia and penetrated the Kirghiz steppes and there endeavored, not without success, to foment rebellion among their nomadic population. He then went so far south as free Turkistan. There in the provinces of Bokhara, Khokhand and Koondoo he found chiefs willing to pour their Tartar hordes into Siberia and execute a general rising in Asiatic Russia. The storm has been silently gathering, but it has at last burst like a thunderclap, and now all means of communication between eastern and western Siberia have been stopped. Moreover, Ivan Ogareff, thirsting for vengeance, aims at the life of my brother!"

The czar had become excited while speaking and now paced up and down with hurried steps. The chief of police, and nothing, but he thought to himself that during the time when the emperor of Russia never pardoned an exile schemes such as those of Ivan Ogareff could never have been realized.

A few moments passed, during which he was silent, then, approaching the czar, who had thrown himself into an armchair, he said:

"Your majesty has of course given orders that this rebellion may be suppressed as soon as possible?"

"Yes," answered the czar. "The last telegram which was able to reach Nijni Udinsk would set in motion the troops in the governments of Yenisei, Irkutsk, Yntutsk, as well as those in the provinces of the Amur and Lake Balkal. At the same time the regiments from Perm and Nijni Novgorod, and the Cossacks from the frontier are advancing by forced marches toward the Ural mountains. But unfortunately some weeks must pass before they can attack the Tartars."

"And your majesty's brother, his highness the grand duke, is now isolated in the government of Irkutsk and is no longer in direct communication with Moscow?"

"That is so."

"But by the last dispatches he must know what measures have been taken by your majesty and what help he may expect from the governments nearest to that of Irkutsk?"

"He knows that," answered the czar, "but what he does not know is that

Ivan Ogareff, as well as being a rebel, is also playing the part of a traitor and that in him he has a personal and bitter enemy. It is to the grand duke that Ivan Ogareff owes his first disgrace, and what is more serious is that this man is not known to him. Ivan Ogareff's plan, therefore, is to go to Irkutsk and under an assumed name offer his services to the grand duke. Then, after gaining his confidence, when the Tartars have invested Irkutsk, he will betray the town and with it my brother, whose life is directly threatened. This is what I have learned from my secret intelligence, this is what the grand duke does not know and this is what he must know!"

"Well, sire, an intelligent, courageous courier!"

"I momentarily expect one."

"And it is to be hoped he will be expeditious," added the chief of police, "for allow me to add, sire, that Siberia is a favorable land for rebellions."

All communication was interrupted. Had the wires between Kalyan and Tomsk been cut by Tartar scouts, or had the emir himself arrived in the Yeniseisk provinces? Was all the lower part of western Siberia in a ferment? Had the rebellion already spread to the eastern regions? No one could say. The only agent which fears neither cold nor heat, which can neither be stopped by the rigors of winter nor the heat of summer and which flies with the rapidity of lightning—the electric current—was prevented from traveling the steppes, and it was no longer possible to warn the grand duke, shut up in Irkutsk, of the danger threatening him from the treason of Ivan Ogareff.

A courier only could supply the place of the interrupted electric current. It would take this man some time to traverse the 5,200 versts between Moscow and Irkutsk. To pass the ranks of the rebels and traversers he must display almost superhuman courage and intelligence. But with a clear head and a firm heart much can be done.

"Shall I be able to find this head and heart?" thought the czar.

CHAPTER II.

THE door of the Imperial cabinet was again opened, and General Kissoff was announced.

"The courier?" inquired the czar eagerly.

"He is here, sire," replied General Kissoff.

"Have you found a fitting man?"

"I will answer for him to your majesty."

"Has he been in the service of the palace?"

"Yes, sire."

"You know him?"

"Personally, and at various times he has fulfilled difficult missions with success."

"Abroad?"

"In Siberia itself."

"Where does he come from?"

"From Omsk. He is a Siberian."

"Has he coolness, intelligence, courage?"

"Yes, sire; he has all the qualities necessary to succeed even where others might possibly fail."

"What is his age?"

"Thirty."

"Is he strong and vigorous?"

"Sire, he can bear cold, hunger, thirst, fatigue, to the very last extremities."

"He must have a frame of iron."

"Sire, he has."

"And a heart?"

"A heart of gold."

"His name?"

"Michael Strogoff."

"Is he ready to set out?"

"He awaits your majesty's orders in the guardroom."

"Let him come in," said the czar.

In a few minutes Michael Strogoff, the courier, entered the Imperial library.

The czar fixed a penetrating look upon him without uttering a word, while Michael stood perfectly motionless.

Michael Strogoff was a tall, vigorous, broad shouldered, deep chested man. His powerful head possessed the fine features of the Cossack race. His well knit frame seemed built for the performance of feats of strength. It would have been a difficult task to move such a man against his will, for when his feet were once planted on the ground it was as if they had taken root. As he doffed his Muscovite cap locks of thick curly hair fell over his broad, massive forehead. When his ordinarily pale face became at all flushed, it arose solely from a more rapid action of the heart, under the influence of a quicker circulation. His eyes of a deep blue looked with a clear, frank, firm gaze.

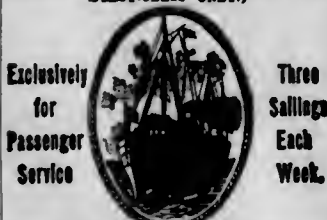

The slightly contracted eyebrows indicated lofty heroism—"the hero's cool courage," according to the definition of the physiologist. He possessed a fine nose, with large nostrils, and a well shaped mouth, with the slightly projecting lips which denote a generous and noble heart.

ALL DECLINE.

STATES WILL NOT PARTICIPATE IN MANEUVERS.

Washington, July 30.—According to present indications very few if any of the national guard organizations of the various states will participate in the proposed extensive maneuvers of the regular army at Fort Riley, Kas., the latter part of September. Early in July Adjutant General Corbin addressed a letter to the governors of the various states and territories, calling attention to the proposed maneuvers and suggesting the desirability of the participation therein of the national guard. A large number of replies have been received already, but in no single instance has there been a positive acceptance to participate. Montana and Nebraska said that the governors were absent, and that no formal action had been taken on the invitation. The governor of Iowa said that the matter was still under consideration by the state authorities.

Positive declinations to attend were received from the governors of the following named states: Vermont, New Jersey, Alabama, Illinois, Georgia, New Hampshire, Indiana, Louisiana, Missouri, Kansas, Kentucky, Maine, Michigan, Maryland, Rhode Island, Arizona, Washington, North Dakota, Wyoming, Idaho, New Mexico and South Dakota, the reason in each case being stated as lack of funds. All the governors heard from commended the scheme.

BROOCH STOLEN

MRS. MINNIE WOODS TOOK OUT SEVERAL SEARCH WARRANTS.

Mrs. Minnie Woods complained to the police this morning that a fine and valuable diamond brooch had been stolen from her and had several search warrants taken out. One warrant was executed, but when the return was made the paper was marked "nothing found." The other warrants will be served, and it is thought the brooch will be recovered. She does not know for certain who got the jewelry but suspects several.

WITH THE SICK.

Miss Tommie Watts of West Jackson street continues quite ill.

Mr. Jim Lowe of Sixth and Campbell streets, the well known electrician, is very sick.

Master Amos Rhodes went to Louisville to visit at noon today.

A HANDSOME PLACE.

MR. SAM GOTT'S NEW SALOON OPENS TODAY.

Mr. S. B. Gott threw open the doors to his elegant New Office saloon at 3 o'clock this afternoon and invited his friends to call and take liberties with his hospitality. The popularity of the proprietor and the excellence of the New Office were heartily demonstrated by the multitudes that enjoyed the courtesies of the opening. Refreshments flowed like a poem, and good cheer mingled among the guests. Mr. Gott was overwhelmed with the congratulations of his friends on the appearance of his handsome New Office, and many toasts were drunk to his health and future prosperity.

The New Office saloon is located at number 119 North Fourth street, and occupies the handsome pressed brick building constructed expressly to meet the convenience of the select trade to which Mr. Gott caters. The structure is three stories in height, all of which are occupied by the different departments of the saloon and cafe.

The saloon proper is located on the first floor, which is covered with the most select designs of encaustic tiling that could be produced by the skilled artisan. The mosaic production of the name of the proprietor in the vestibule of the saloon is a very superior work of art. The entire floor space of 3,000 square feet is covered with this handsome tile, which is supported by a cement base.

The bar fixtures and fitting were designed especially to meet the taste of Mr. Gott. Sixty linear feet of elegantly carved golden oak greets the visitor as he passes through the translucent doors. The three hundred square feet of imported mirror gives the room the appearance of a "crystal maze."

The back bar is wrought in the same artistic design. The huge golden oak pilasters give a relief and massiveness to the whole that challenge the admiration of all who view them. Every item of furniture in the room harmonizes with the elegant bar fixtures, and, as observed by one of the guests, constitute a "poem in oak." The commissary is located at the immediate rear of the bar which renders it very convenient and accessible. The larders are well stored with the tempting viands with which Mr. Gott serves his guests. The toilet apartments and lavatories are equipped with the latest sanitary plumbing. The heating and ventilation of the building are scientifically arranged.

The culinary department is situated on the second floor. This obviates the unpleasant odors arising from the ranges and ovens. The prepared food is served by means of an elevator which connects the kitchen and the commissary. The merchants' luncheon served in the New Office is an innovation for Paducah caterers. Game and fish are purchased from first hands and preserved in the cold storage of the New Office. Situated on the second floor is an elegant private dining hall, which will be at the disposal of private parties desiring to dine in groups or to serve banquets to friends.

The sleeping apartments are also located on this floor, which consist of several suites of handsomely furnished rooms. Hot and cold baths and the latest lavatory accommodations are at the disposal of the occupants of this department. Electric ennelators make known the wants of the guests from any part of the building.

The completeness and convenience of the New Office were the subject of much favorable comment of the many visitors who partook of the hospitality of Mr. Gott. A truer Kentucky hospitality was never dispensed, and during the entire day this popular resort has been the Mecca of all who desired to slake a thirst or renew the inner man.

The festivities will be dispensed throughout the evening, and Mr. Gott extends a cordial invitation to his many friends to spend the evening with him.

Misses Theresa and Rose Fries of Terre Haute, Ind., returned home today at noon after a visit to Mrs. Henry Fries of the city.

REDUCTIONS ADDED TO

REMOVAL

MAKE THE MOST WONDERFUL FURNITURE BARGAINS
EVER SEEN IN PADUCAH. WE HAVE THEM HERE.

Following a Rhodes-Burford custom at this season of the year, we announce a general reduction of prices on all summer goods in order to close them out during the warm weather when they will be of service to our patrons. We do not carry over from one season to another any goods that we can possibly dispose of. We even sacrifice our profits in our efforts to clean up many lines. It is a saving sometimes to sell at a loss instead of taking the trouble and expense to pack and move to our new store.

THE goods we carry in stock, and the same which we are advertising to sell at Removal and Summer Reduction Price, are of high grade and reliable quality, made to sell to people who desire to have something good in their homes. While we are not manufacturers, we handle the entire output of some of the largest factories in the country—and they are factories—not lumber yards. Every article we advertise we have in stock. No misleading statements—like a would-be competitor who poses as a manufacturer and in a whole page ad. never mention an article but what was made outside of Paducah. That's nil talk—merest rot. We come to Paducah to be a part, parcel and citizen of the place. We have put nearly \$60,000 in this business, and we want to thank the people for their generous patronage that has enabled us to grow and become the leading and largest institution of the kind in the city. Our big New Store will soon be ready for occupancy and then we will show you what an up-to-date, reliable, progressive Furniture Store looks like. In the meantime we are disposing of our present stock at prices away below value—prices that are not duplicated by any house in the business handling equal or better grades of merchandise.

He has sworn out about twenty warrants against the delinquents, and the cases will come up for trial in Judge Sanders' court about Friday.
